## Boorsma is a single-issue candidate

Wednesday, July 23, 2008 5:16 PM EDT

To the editor: I wish to express my strong opposition to Todd Boorsma's bid for state representative of the 88th District.

As former head of Michigan Gambling Opposition, he has shown himself to be a single-issue candidate whose sole concern is an obsession with keeping the proposed Gun Lake Casino from opening.

This has delayed the startup of a business that will eventually generate millions of dollars in revenue to state coffers, along with thousands of well-paying jobs from becoming available at a time when the state's economy is tanking.

Do we really need someone like him representing any segment of Michigan's voting public?
