Don't tell us what we want

I wish to join others who would like to have a casino near Gun Lake. A group of neo-cons are attempting to shove their morality down others' throats by blocking the construction of the casino.

When I voted in the last election, I voted to have the citizens of Michigan determine whether or not they wanted a casino built in their state. I voted for the amendment because I was promised that a ``Yes" vote would not affect the Gun Lake casino. Here it is many months later and the casino still hasn't broken ground.

I feel that I was lied to and the problem lies with an organization called MichGo. The people of southwest Michigan don't need them telling us what we want and don't want.
