

Allegan County News

Some Thoughts On...

August 15, 2007

I can't answer the question many of you have asked me ... Where does State rep. Fulton Sheen get the numbers he uses to claim more people in Allegan County don't want the casino here than do want the casino here? He's finding them the same place Todd Boorsma is finding them ... They are in their very fertile imaginations ... In order to justify their own actions they have to believe their own lies ... Sheen asks "Why are we favoring a small group of people who don't pay any of the taxes associated with running a business in Michigan?" ... He's taking a cheap shot at an Indian tribe ... or perhaps a church? ... Both benefit from the federal tax laws ... As this issue gets down to the nitty-gritty and casino nay-sayers see their case going down the tube, desperation sets in and they grasp at straws, or even toll booths ... Silly things, shots in the dark ... And, we find that those who couldn't shoot straight in the beginning, just get worse at the end.
